

## HOW TO MEASURE DOG CLOTHING:

**Body Length-** Measure the length of your pet's back from the base of the neck to the base of the tail.

**Neck Girth -** Measure the circumference of your pet's neck, snug but not tight.

**Chest -** Measure the girth around the broadest part of your pet's chest and then add two inches.

**Note -** if your dog has a stout build, select one size larger.

## HOW TO MEASURE HARNESSES AND FLOTATION VESTS:

Measure girth around the broadest part of the chest and add 2".

## HOW TO MEASURE COLLARS:

Measure the circumference of pet's neck and add 2".

## HOW TO MEASURE BOOTS:

With dog standing, measure from the front edge of the small pads to the back edge of the large pad (do not include the nails).

## HOW TO MEASURE BEDS:

When dog is lying down, measure pet's body length from base of tail to tip of nose, and add a minimum of 9-12".

## HOW TO MEASURE HATS:

For a proper fit measure the length of head from 1/2" above dog's brow to back of head.
